

Nursery Rhymes

Don't forget to make some time to sing nursery rhymes. Each day at Nursery your child is encouraged to sing nursery rhymes, we have planned times during the day to complete this.

Why is singing nursery rhymes important? Singing nursery rhymes and action songs can help your child to develop their attention and listening skills, essential skills that underpin language development. Below are a list of nursery rhymes your child enjoys to sing.

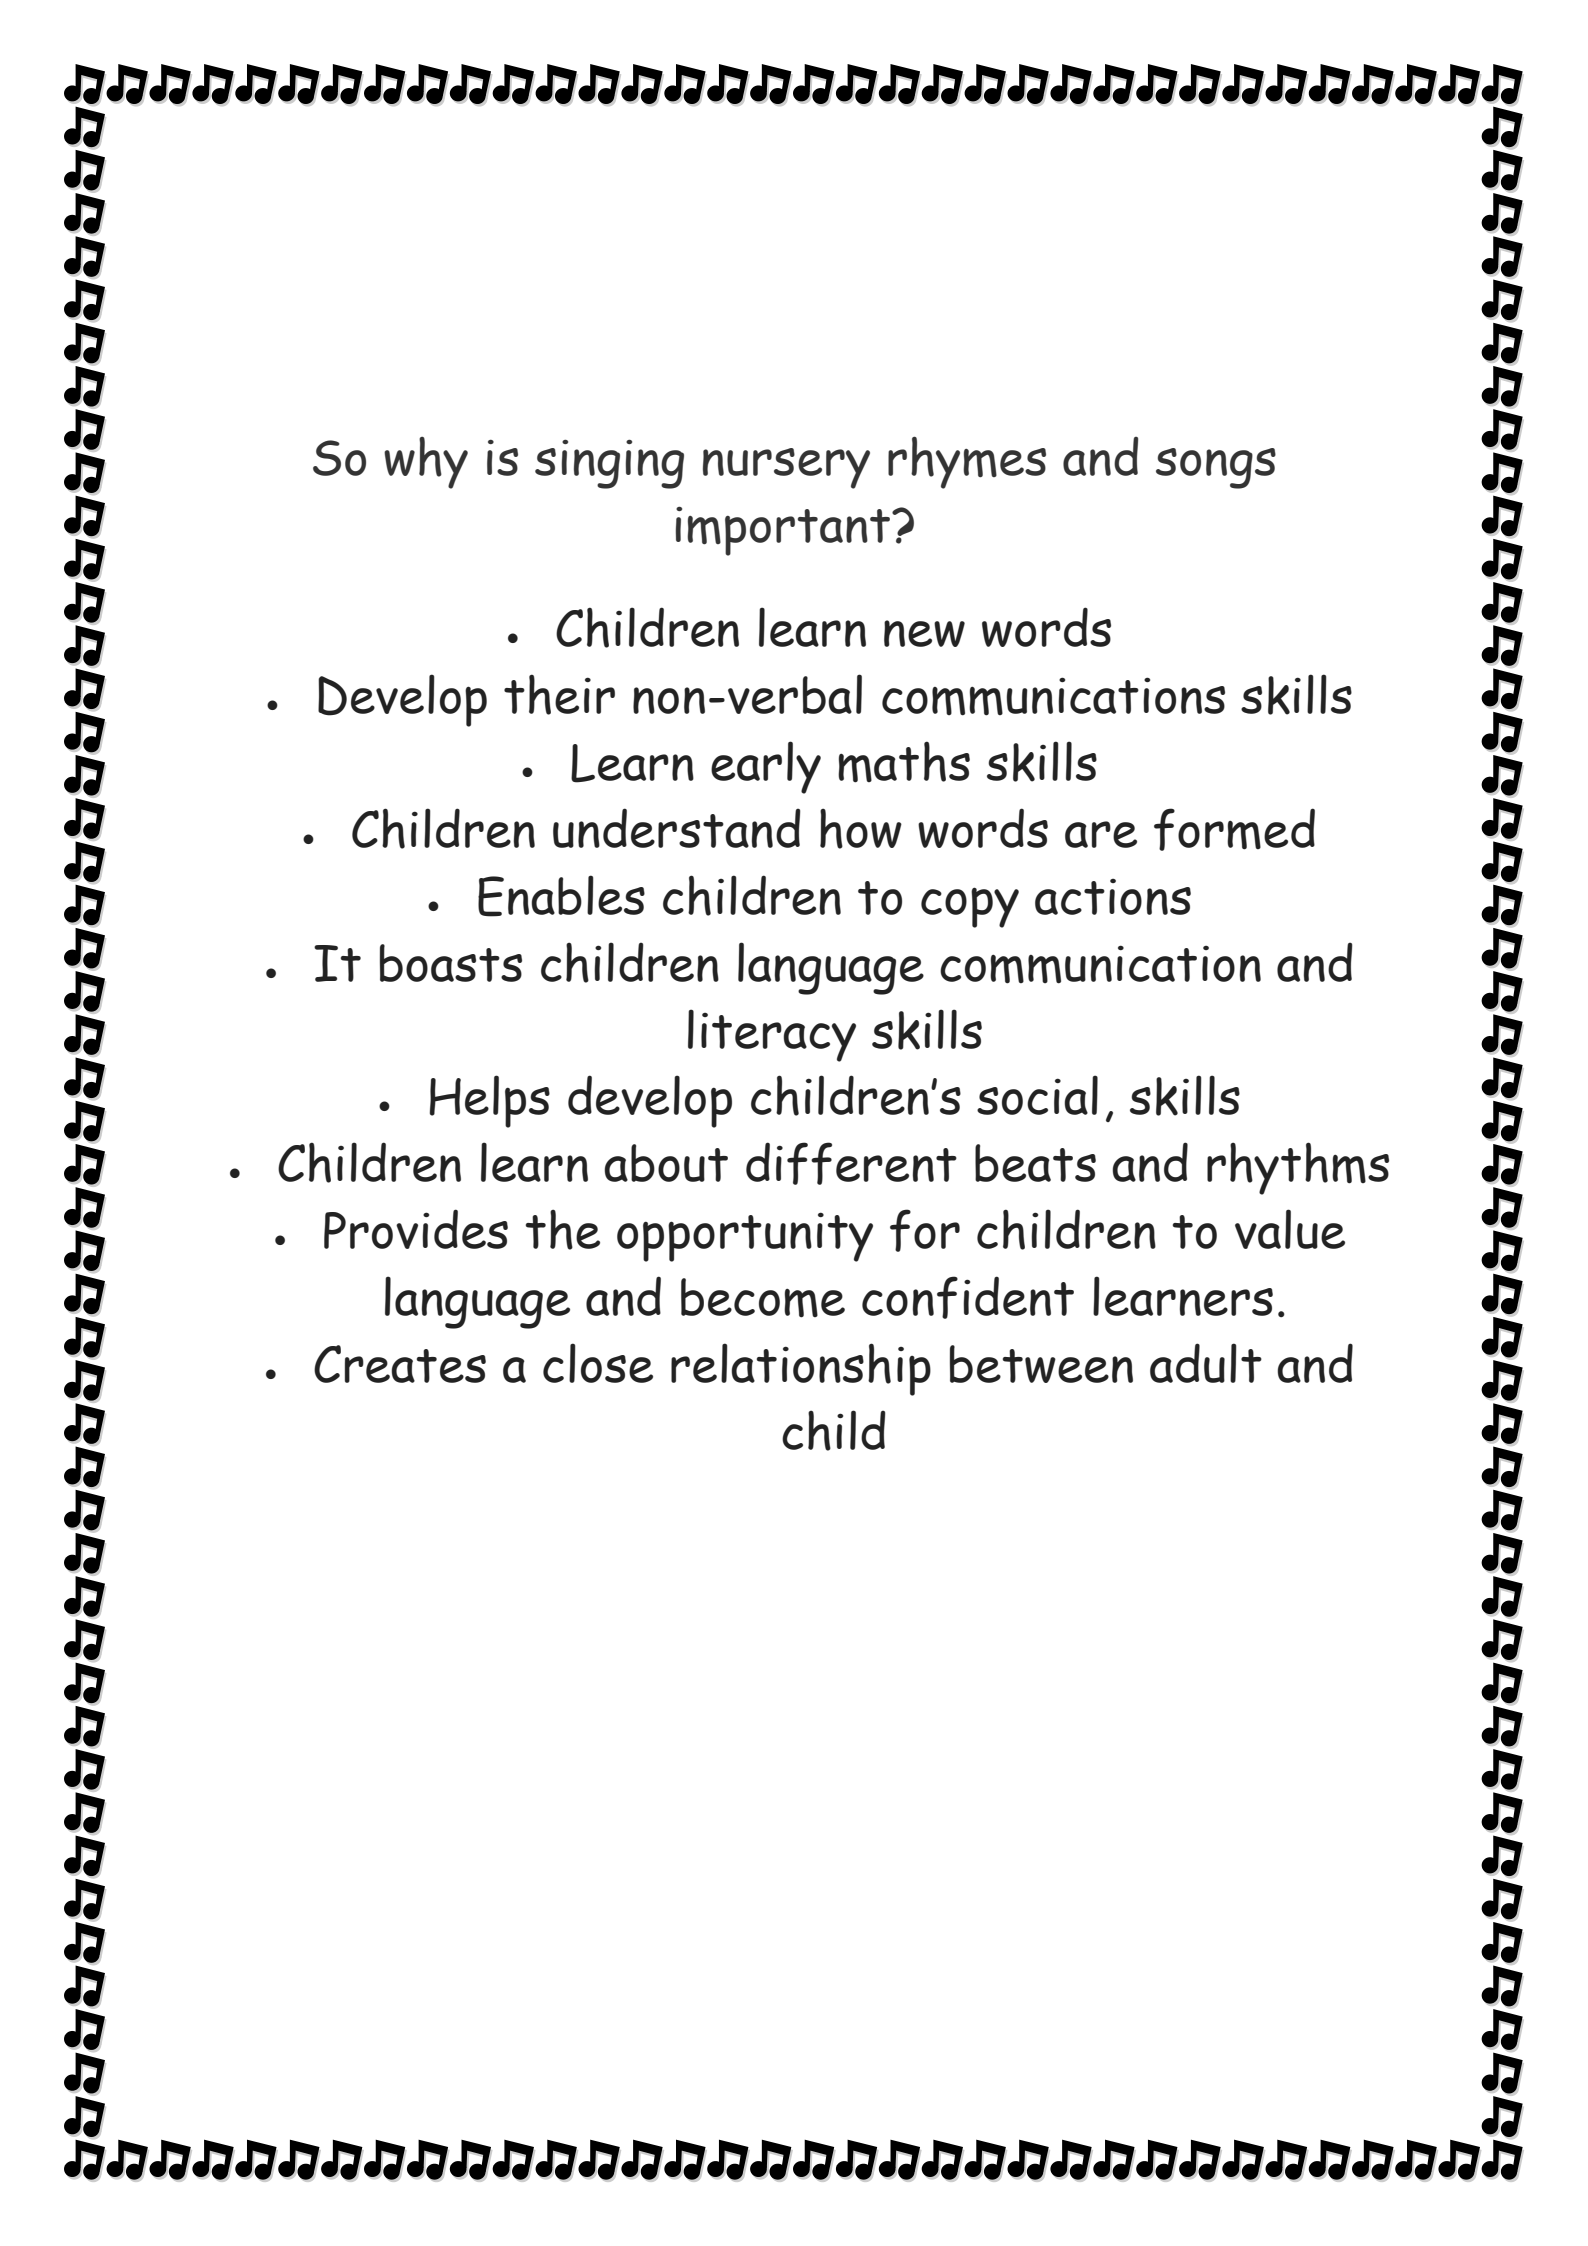

You can use props to make music time fun! Instruments are a great way to keep children engaged, you can sing the rhymes in a loud voice, quiet voice.

Can you make your own songs up?

Don't forget you can send pictures videos to your child's 2Build Profile. Mrs Bell and Mrs Jordan would love to hear you sing!

So why is singing nursery rhymes and songs important?

- Children learn new words
- Develop their non-verbal communications skills
 - Learn early maths skills
- Children understand how words are formed
 - Enables children to copy actions
- It boasts children language communication and literacy skills
 - Helps develop children's social, skills
- Children learn about different beats and rhythms
- Provides the opportunity for children to value language and become confident learners.
- Creates a close relationship between adult and child
