

**Year 5 and 6 | Home Learning Activities | Week 6**

**Reading**

Can you take on the challenge of reading a whole book in just one week? Once you have read your book, don't forget to log on to Accelerated Reading and take the quiz!

Write a short book review of the book that you have read.  
Would you recommend it to others?  
Who is the book most suitable for?

**Family Learning**

Create a board game that the whole family can enjoy!

Is your favourite board game Snakes and Ladders, Scrabble or does your family love a game of Monopoly?

To create your board game you will need to draw out your board and then think about whether you will need question cards or paper money.

What will you use for counters?  
What does the winner win?

**Maths**

How quickly can you write down the multiplication tables up to 12 x 12? Time yourself and then challenge yourself to achieve your personal best time.

Is there a particular multiplication table that you find tricky?  
Create a poster to help you remember these – you could use pictures or write each number in bubble letters.

**Writing**

The Ancient Greeks are well-known for their love of mythology – stories which often involve supernatural and magical creatures.

Write a short myth to explain something which has happened around you.

Is a magical being to blame for your untidy room?  
Has something supernatural happened to one of your siblings?

Find some examples of Greek myths here:

**SPaG**

Word Classes

Choose a piece of text – this could be a page of the book you are reading, a magazine article or even the back of your cereal box!

Draw the following around the words to identify:

Circle – nouns

Underline – verbs

Square – adjectives

Star – adverbs

**Geography**

Use Google Earth (or other online mapping software) to take a closer look at Greece.

Use the satellite images to take 'real-life' look!

Try to find:

- Navagio
- Athens
- Meteora
- Melissani Cave
- Parthenon

**Art**

In Greek mythology, the Minotaur had the head and tail of a bull and the body of a man.

Design and label your own mythical beast.

Think about whether your creature will be good or evil and choose your body features based on this.

**PSHCE**

Do a 'good deed'

Do a positive act during this difficult time.

You may think about:

- Helping to complete a task around the home – maybe even tidying your room!
- Designing a card to give to a neighbour or relative.
- Picking up litter that you may see during your daily exercise.
