

Intent

At Lakes Primary School, we endeavour to develop in our children an understanding of the importance of physical activity and its role in maintaining a healthy, active lifestyle. We aim for all children to develop the skills, confidence and resilience to enjoy being active and achieve their personal best.

We want every child to recognise that everyone can participate in and enjoy physical activity. Through a broad and balanced PE curriculum, we encourage children to develop their physical skills, work with others, embrace challenge and develop a lifelong enjoyment of being active.

Implementation

Lesson Structure

Across school PE lessons follow a similar structure.

Warm up

Skill development

Application

Review and reflection

Lessons are planned using the school's PE curriculum map and appropriate schemes of work. National Curriculum objectives are broken down into progressive steps to support children in developing fundamental skills and building on prior learning. Teachers use a range of high-quality resources and activities to supplement planning where appropriate and ensure that lessons are engaging, inclusive and appropriately challenging for all pupils.

Impact

We use a variety of assessment strategies to monitor the impact of our PE curriculum. Throughout each lesson, teachers use observation and Assessment for Learning (AfL) to assess pupils' performance, identify strengths and address areas for development. Where skills have not been secured, opportunities are provided for further practice and consolidation, while pupils who demonstrate confidence and competence are encouraged to apply and develop their skills further. At the beginning and end of each unit, teachers assess pupils' physical skills and understanding to monitor progress and inform future planning. This ensures that pupils build on prior learning and are appropriately supported and challenged.

CPD

Enrichment

- Pe leads work with staff to identify training needs and provide opportunities to develop subject knowledge.
- CPD is informed by monitoring lesson observations and staff development needs.
- Staff are encouraged to share good practise, engage with relevant training and use guidance from the School Sports Partnership to continually improve the quality of PE provision across the school.

At Lakes we:

- Provide a range of extra-curricular PE and sporting activities.
- Offer opportunities for children to experience a variety of sports and physical activities.
- Encourage participation in school competitions, festivals and sporting events.
- Work with the School Sports Partnership and wider community to provide additional sporting opportunities.
- Encourage children to continue being active beyond PE lessons and school.
